NATURAL RESOURCES

OF ALBERTA

Mr. J. A. Kelso, chemical engineer in
the industrial laboratories of the
University of Alberta, contributes
some very valuable information on
the natural resources of Alberta.
Two of the main questions asked
of the province at the present time
are: "What are your reserve forces?"
and "Are these being developed in
such a way as to give value for
money invested?"

The first consideration is of course
Agriculture. Alberta wheat, oats
and barley are second to none while
flax is now extensively grown. Al-
berta barley is claimed to be su-
perior for malting and the establish-
ment of malting and brewing indus-
tries means extensive barley growing.
A big impetus has been given to
agriculture by the government school
and farms, and by the irrigation
systems.

After agriculture the following will
give an idea of the stability of the
province: (1) Inexhaustible supplies
of semi-anthracite, hard coal, and
lignite coals, which have been ex-
ploited as a main asset of the pro-
vince. Many of the coals are ex-
cellent, yielding an excellent and sur-
geous fuel, and before long the max-
imum products of the coals will be
utilized. From one ton of coal
may be obtained (a) 5000 cu. ft. of
approximating 5000 British heat units
(b) 20 lbs of ammonium sulphate
which may be saved as ammonia
suitable for refrigeration or as the
sulphate fertilizer; (c) from 7 to 9
gallons of tar which can be distilled
into creosote oils, light oil, and
gas, the last being used as a
briquette fuel. (3) An immense
supply of natural gas. Boring op-
erations have proved the existence
of large reservoirs of natural gas.
The Bow Island field supplying Leth-
bridge and Calgary and the Medicine
Hat field are well known, while the
Viking field has recently come into
the limelight. The heating value of
this gas is high, approximating 1000
Btu per cubic foot. (4) Limestone, clay
and shale deposits suitable for the
making of ceramic ware, the best
ever produced, terra cotta, etc., and
also cement. (5) Limestone and
dolomite deposits utilized in the cement
industry. Factories are now in oper-
ation at Marlboro, Calgary, Bashaw
and Matthews. (6) Building stones
buff and red sandstone, etc., adapted
to building construction. (7) For-
ests, especially in the north, where
there are large areas of pulpwood
material, the base of the paper in-
dustry. Factories are now in oper-
ation at Marlboro, Calgary, Bashaw
and Matthews. (8) Ore of lead, copper,
silver, nickel, zinc, etc. (9) Iron
ores and deposits. The province al-
so possesses the other blast furnace
ingredients. (10) Paint materials,
gypsum and iron shales. (11) Pe-
troleum indications, prospecting and
development is being carried on from
the Sweetgrass area near the border
to the Athabasca. (12) The evi-
dence of the existence of oil is at
hand; the general aspect and geo-
logical formation hint at its existence
and further examination of the field
has shown that oil is present in
commercial quantities in several lo-
cations. In the Peace River district
there are seepages coming from the
Dakota sands. These of these sands
carry from 15 to 20 per cent of as-
phalt, and it is supposed that the
petroleum exists in this porous rock
at some distance from the outcrop.
The base of these tar sands are 37
per cent silica sand and the upper
part of the sandstone is the best quality
of glass.

When the above facts are consid-
ered, and the addition of the un-
derground sources of power and trans-
port facilities are remembered, it
will be seen that Alberta contains
within her own boundaries natural
resources which, when developed, will
make her second to no province in
the Dominion.—University Press Bu-
reau.

PALMERSTON, Ont., June 20th, 1913.
I really believe that I owe my life
to "Fruit-a-tives". I was so sick and
weak, I have been under the care of
physicians and have been paying
doctor's bills. I was so sick and
weak that people on the street often
asked me if I thought I could get
along without help. The same old
Stomach Trouble and distressing
Headaches nearly drove me wild.
Sometime ago, I got a box of "Fruit-
a-tives" and the first box did me good.
My husband was delighted with ad-
vice a continuation of their use.

Today, I am feeling fine, and a
physician meeting me on the street,
asked the reason. I replied, "I am
taking Fruit-a-tives". He said, "Well,
if Fruit-a-tives are making you look so
good, and take them. They are doing
more for you than any other medicine."

pires come and go, but through all
the vicissitudes of governing ma-
chinery the nations of the world are
being "destroyed and indestructible."
And when all the human links
between nations are broken, the link
between the nations is the link of com-
mon love.

Through the smoke of burning
cities we can see the sweet and
face of the eternal mother—yearning
over a thousand battlefields, searching
for the traces of her children, tend-
ing for the beloved face, laying a
reverent hand on the graves of the
unknown and unnumbered dead,
shedding over all the wild chaos of
carnage a hallowed radiance of un-
dying devotion.
The mothers of mankind will not
have suffered in vain if their suffer-

Out of their anguish let the will of
God be done, let the will of the

against their adversaries for ever.—

THE CANADIAN S'ED

GROWERS' ASSOCIATION

The tenth annual report of the
Canadian Seed Growers' Association,
which is now being distributed, con-
tains the names of the members and
a summary of the work of the associa-
tion with a classified list of those
who are endeavoring to qualify for mem-
bership. There were 245 individual
members of the association during the
year, while 54 seed companies had
been established. The total number of
members now affiliated with the as-
sociation is 1854.

The director's report shows that
during the year 1913-14 a "Tins" 10-
action was held for the revolution-
ize the whole seed growing business
and place it on an infinitely higher
level was initiated. This action man-
ifested itself in the establishing of
what is known as "seed growing cen-
ters." Up to this time these seed
growing centers were operating as mem-
bers of the association were widely
scattered, rendering it impracticable
to co-operate in any way, which
might lessen the work of each, and
at the same time make it easier to
supply large quantities of "regis-
tered" seed at given points. The
director of agriculture assisted in dif-
ferent provinces assisted in the movement.
Ontario, through his wide spread dis-
tributive representative system, estab-
lished over forty centers. The re-
maining centers were distributed over
the other provinces.

It is made to a change in the
direction of the movement, it is possible
to have all regularly organized seed
centers accepted as members of the
association. Hereafter, only individ-
uals could become members. Fur-
ther, it was also granted in allow-
ing a center to choose one, or two
of their members to produce the
elite stock seed for propagation by
the center instead of requiring each
individual grower to produce his own
stock seed.

The papers and addresses printed
in the report constitute a valuable
contribution to the literature on
seed improvement. They deal with
such subjects as "The production of
seed of alfalfa in Canada," "Field
crop competitions," "Soil manage-
ment in relation to seed quality
in seed," "Difficulties in pure seed
propagation," "Potato diseases" and
"The seed centre as a basis of sup-
ply of registered seed."

Copies of this report are available
at the publications branch, depart-
ment of agriculture, Ottawa.

PATRIOTISM AT HOME.

One of the strongest features that
is brought out by the present war
in the country at large, and mani-
fested in the particular, is the idea
that has been forced home that
loyalty to one's country and one's
town is one of the surest proofs
of patriotism.

The "Made-in-Canada" idea has
caught the fancy of the people be-
cause it is a patriotic cry.
So the patriots, carrying their home
loyalty in relation to the people
throughout the country.

And it is a worthy cry, for a
strong, forcible argument for home
production and patriotism.
Build up your home town. Pat-
ronize your home merchants, who

help to pay the taxes, do a good
work, and are the backbone of the
country. If you do not help them,
it comes out of your pocket in the
end, because you help to make hard
times here by sending your money
away, and you have got to help pay
for that loss in the end.

We have asked you to help the
merchants and the business men by
sending your money at home. We
are now going to speak a word for
the printers. Get your printing done
at home. Your papers are the life
of the country, and must have
your support to live. Thousands of
dollars worth of printing is sent out
of our city that could be printed
here. The patriotic and patronize
home industry in all its branches,
the printer as well as the other
branches of industry and society
shall grow your efforts if you are
sincere.—Exchange.

EXPORTS OF FALL GRAIN

Edmonton, Nov. 22.—Two and
half million bushels of wheat and
oats have been shipped this fall by
the Canadian Pacific Railway in the
territory between Edmonton and a
field, including the Wetaskiwin and
Lacombe branches, while there
are still a considerable number of
and six hundred thousand bushels of
oats now in track elevators, accord-
ing to a statement made to the bal-
letineur by Superintendent McGregor.

The number of bushels of wheat
and oats shipped so far from the
principal points have been as fol-
lows: to Kansas and coast
Kilgus 337,000
Saskatoon 581,000
Dayland 285,000
Lacombe 193,000
Wetaskiwin 149,000
Sturgeon 149,000
Leduc 107,000
Castor 98,000
Bawlf 98,000
Beardmont 98,000
Olive 92,500
Veteran 72,000
Coronation 62,000

Superintendent McGregor estimates
that the above quantities will be
easily done within the next few
weeks. The daily shipments now a-
mount to sixty thousand bushels of
wheat, and forty thousand bushels
of oats. Farmers, as a rule, save
the superintendent, have been hold-
ing their grain for an advancing
market, but they are now, able
to get from \$1.00 to \$1.25 for wheat,
they are now rushing it forward.

With regard to cattle, Superintendent
McGregor stated that during
the United States embargo shipments
were held up, but buyers are now
travelling through the district, and
shipments are expected to be very
heavy within the next few days.
The superintendent is now holding
and hopes ready for shipment.

New York.

I've purchased in Paris, yes, and in

When the boxes were opened I stood
there alone.
And I found myself goods are better
at home.

The store that I sent for had only
three figs.
But the use of a stove if it has
it in its own right, it is a good
thing. When I looked in the oven it was
cracked to the bone.

Then I wrote to old Mike I had
bought it at home.
I'm now all filled up with this buy-
ing away.
I'll be contented with my good butter
and hay.

If the Lord forgive me no more
room.
Hereafter I spend all my dollars
at home.

**TRIED NEARLY EVERYTHING
FINALLY
DR. WOOD'S
NORWAY PINE SYRUP
CURED HIM.**

Mr. Wallace H. Grange, Vancouver,
B.C., writes: "During a cold spell here
about the middle of last October (1913),
I caught a cold which grew worse
all treatments I could obtain, until
about November 22nd, I tried a trial
bottle of Dr. Wood's Norway
Pine Syrup. Really, I had no faith in
it at the time as I had tried nearly every
other remedy I had heard of, to no avail.
But I thought I would give it a
fair trial. I purchased a 50 cent
bottle. Three days I was feeling
better. The coughing was prolonged,
but I had no more of it. I had no
coughing. I carried the bottle in my
pocket, and every time I was seized with
coughing I would take a small dose.
I can most heartily recommend Dr.
Wood's Norway Pine Syrup to anyone
with a severe cold, as it is so power-
ful and effective, and I never intend
being taken at all times.

PERSONALITY

There's a quaint and pretty Indian superstition that those who are photographed lose something of their personality—that this personality becomes a part of the picture.

Be this superstition or be it sentiment, the idea leaves both truth and charm. For a picture means something, is personal, gives the homely touch of friendship—especially at Christmas time.

The charge for one party 10c and another 12c, as they are public utilities, and no conditions must be attached other than the Canada Grain Act, and the rules and regulations of the board of grain commissioners must be added by.

A meeting of all those interested in hockey will be held in the city hall on Monday evening next, at eight o'clock sharp, when officers will be elected and plans for the season's work will be considered. Wetaskiwin will be able to put a winning team on the ice again this winter, as in addition to all of last year's team, except Frank Herie, there are two or three new players in the city who have been in very fast company who should strengthen the septette of last year. Let there be a big meeting on Monday night to encourage the boys and assist them in getting a way to a good start.

ALFALFA IS VERY

PROFITABLE CROP

Irrigated lands in Southern Alberta, when devoted to alfalfa growing, return a net profit of eight per cent, on a valuation of over \$100 per acre according to S. S. Dunham, chairman of the Rural Relations Committee of the Lethbridge board of trade.

Mr. Dunham presented his figures at a meeting of farmers recently held near Lethbridge to petition the government to extend the irrigation system in Southern Alberta. A petition, praying the government to undertake important irrigation enterprises, was signed by over 200 farmers. The cost of bringing the land under irrigation was estimated at \$15 an acre, and the farmers expressed their willingness to pay this amount, with interest at four per cent, the government to extend repayment over a period of forty years.

Mr. Dunham presented his figures. "Get irrigation at \$15 an acre if you can," he said, "if you cannot at \$15, at \$20, at \$25, at \$30, at \$35, at \$40, at \$45, at \$50, at \$55, at \$60, at \$65, at \$70, at \$75, at \$80, at Reaching the People
A prominent real estate dealer in Toronto says that he gets better and quicker results from the Classified Want Ads. than from any other kind of publicity. He states that the results are not of proportion to the small expense involved.
There is a moral in that for you if you want to reach the people.

WAR NOTES

Haute, France, Nov. 12.—Directly after Lord Kitchener's speech at the Lord Mayor's banquet in London in which he said he had 1,250,000 men ready to land in France, that he had a steady stream of transports from England to Havre. As many as 300 ships of various sizes have been lying outside the harbor at one time. The ships are loaded as soon as the ships can land. The troops are mostly British, but well seasoned. After a march from the docks through the streets of Havre, cheering and being cheered, they disappeared. The coming troops seem in high spirits and sing and whistle on the march. Montreal, Nov. 24.—Fifty-three carloads of wheat were purchased today by the Belgian relief committee from the O'Leary Mill for \$68,000, and let for Halifax to be loaded on the steamship Calcutta.

The government at Ottawa took drastic steps on November 20 to prevent the sale and circulation of American publications which have been making it their business to misrepresent the cause of the allies in the present war, and to boost the cause of the enemy. The alleged pro-german publications are four in number, and the law now declares it a crime to sell or have any of these in one's possession. It is probable that other similar cases will be dealt with in a like fashion at an early date.

Ottawa, Nov. 23.—General Sir Sam Hughes stated today that if he can get away he will leave shortly on an inspection trip through the west visiting Winnipeg, Calgary, Edmonton and the coal fields. The minister is suffering from a severe cold and the doctors say he is three or four days from being fit to go. He will leave Winnipeg on Monday and will travel through the Maritime provinces.

Winnipeg, Nov. 23.—A celebration of the centenary of the British Empire was held at the city hall yesterday (yesterday) in honor of the centenary of the British Empire. The celebration was held in the city hall and was attended by a large number of people. The celebration was held in the city hall and was attended by a large number of people.

GUARD AGAINST GERMAN RAYD
Buffalo, N.Y., Nov. 23.—Extraordinary precautions have been taken to guard against a possible raid by Germans or German sympathizers across the Niagara river. A permanent guard of militiamen has been stationed at Port Erie, directly opposite Buffalo, and the whole river front from there to Queenstown and Niagara Falls is patrolled day and night by between 50 and 60 men. The new guard is composed of members of the newly organized home guard regiments.

MONEY FORTHCOMING FOR CANADA, SAYS

Toronto, Nov. 20.—Sir D. Mann, vice-president of the C.N.E., expressed the opinion in an interview yesterday that the amount of capital available for Canadian development will not be lessened by the enormous waste of the present military venture. He stated that the money is being raised upon the expectation that the allies will not permit the war to continue until some permanent solution is in sight. The only development which is being carried out is a partial or entire evacuation of the "line" of capital toward Canadian development. Sir Mann stated that the "line" of capital toward Canadian development is being carried out in a partial or entire evacuation of the "line" of capital toward Canadian development.

Sir Donald made the interesting prediction that the ocean to ocean line of the Canadian Northern will be put into action next summer, whether we continue to fight or not. There was no question, he said, why delay should be permitted. The last yard of trackage will be finished by January of a point in British Columbia, where large forces are now working. The weather conditions will be very favorable for the work, when the final process will be rushed to completion.

Settlement of vacant farm lands will be "quickly" revised after the war, said Sir Donald. Indeed, he is looking forward to a volume of immigration equal or greater than that which Canada has been exporting for years past.

MANY MEN WILL GO TO THE FRONT FROM ALBERTA

Calgary received the definite news announced by Gen. Sam Hughes last night, that Alberta will be called upon to raise two mounted regiments amounting to about 1200 men and officers, and three regiments of infantry, amounting to 3,000 men, in the usual way.

"That's easy, we can raise them and a few more, by the bare announcement," declared military men "but when is the band going to play and the recruiting commence?"

According to the announcement, however, the call will go out for the men before the mobilization will take place and the men will be held and concentrated in various towns and cities throughout the province until such time as they are needed. When take place.

They are needed, mobilization will be the English business liver of the city, for with only 1,000 men quartered and rationed here, the effect is being felt. A pay day has already come and gone and the wake of it has caused a slight ripple and a greater exercise of the cash registers. The figures in dollars and cents the presence of the soldiers is a distinct boon to the city.

In view of the present announcement military men take it to mean that there will be a constant supply of men under mobilization at Victoria Park.

The news contained in an Ottawa dispatch recently, that Col. McDonald of Calgary would command one regiment, and Col. Sissens of Medicine Hat another, seems likely of verification.—Albertan.

GOOD HOCKEY SEASON IS IN PROSPECT

Amateur hockey will boom in Alberta this coming season if present indications are any criterion. The Alberta Amateur Hockey association following the rules set by the O.H.A. will have three divisions, senior, intermediate and junior, and expect to have a record club roll. No players have been registered to date with Secretary Mann, but this is to be expected as the league season will not open for another two weeks. The opening gun will be fired in Edmonton when the Intermediate division will commence its schedule on December 14.

Secretary Mann is delighted with the interest shown in Edmonton where it is likely there will be two senior, five intermediate and four junior teams entered in the A.A.H.A. Calgary also, will support senior, intermediate and junior divisions. The A.A.H.A. secretary is endeavoring to get a team together at Red Deer and if successful will group it with Lacombe and Wetaskiwin. On the Wetaskiwin branch line, Camrose, Bowfist, Stouffville, Longhead, Hardisty and Killam want to enter their teams, and will probably be formed into two districts. No word has been received from the Medicine Hat and Banff districts yet.

The new league constitution is now in the hands of the printers and will be available in ten day's time.—Edmonton Bulletin.

PARLIAMENT TO MEET.

Ottawa, Nov. 30.—A meeting of

parliament in the third week of January, probably about the 21, is the current opinion in political circles here, says the Ottawa Citizen. The matter has not been definitely determined as yet. It is well known that the government's program will not be extensive or such as to involve controversy. It will be confined essentially to war appropriations and to new methods of finance which the war conditions call for. The general idea is that the session will not be long. This, however, will depend upon the opposition. If it reaches the conclusion, as is evident in some Liberal sources, that there will be a general election before another session there may be a tendency to introduce partisan politics, that will doubtless prolong deliberations.

How former Chief of Police Lancey of Edmonton, was the victim of a conspiracy on the part of several ex-convicts, who claimed he had "thrown them down" after they had reformed and sought an honest living, and how Edmonton was made the rendezvous of the greatest aggregation of underworld celebrities, gamblers, rackets, and others of their ilk ever recruited in Canada, is revealed in the confession of one of the members of the fraternity who spent a month or more of last summer in Saskatoon, under the alleged true meeting between the police and the crooks in that city.

6,000 HORSES WILL BE REQUIRED FOR NEW CAVALRY REGIMENTS

Ottawa, Dec. 2.—Active arrangements are in progress at the militia department for the extra recruiting called for by the new divisional scheme. The special committee on remounts, headed by Sir Adam Beck conferred today with the minister of militia in regard to the providing of horses.

There are to be 27 squadrons of cavalry, each with a total strength of 200 and this will require about 6,000 horses. They will be purchased throughout the country by the same system as was followed when the artillery horses were bought. The supply promises to be fully equal to the requirements and there will be no hold-ups for high prices.

PEACE ON EARTH

Thoughts of the suffering and misery around the waters will make this Christmas all the more near and dear to Canadians.

There will be a meaning to the day it has never held before.

And with the increased sentiment will come a wiser practical distribution of little remembrances.

Already the stores are in their holiday attire. Their announcements are urging early shopping, and the invitation is backed up with merchandise.

Run your eye over the advertisement in The Times and begin planning for Christmas.

MULHURST

The road is the scene of numberless minor banquets.

A banquet and concert will be held at the Bonnie Glen school on Friday evening, December 4. No admission. Everybody invited.

A very pleasant evening was spent at the home of Mr. and Mrs. Frank Cummins on November 23, when they celebrated their 14th wedding anniversary. About 44 guests were present and the evening was spent in dancing and cards. The guests were received at the door by Miss B. Bunker of Toronto, dressed in charming satin trimmed in brown fur. Among the guests of honor were Mrs. Bolton of Strathcona, and Mr. Chas. Cummins of Cadogan. About 11:30 dinner was served in the dining room by Miss Nellie James, Miss Tofts and others. As the guests reassembled in the parlor, Mr. and Mrs. Cummins were presented with a beautiful oak rocker and a few chosen remarks by Mr. Brock, to which Mr. Cummins replied "thank you" for their kind consideration. Before departing for their several homes, all joined in singing "Auld Lang Syne."

Sunday school every Sunday afternoon at 2 o'clock at the Bonnie Glen school.

Evening is closed to see Ed. Kinchilla around again after his serious illness.

Fred Facey, one of the pioneers of the city, was visiting at the home of his daughter, Mrs. J. H. Walker during the week. He was en route from Edmonton to Washington where he expects to spend the winter with Mrs. Facey, who has not been in good health for some months.

Calgary Oil Fields

Free Market Letter
Commercial quantities of high grade oil in a proven field and tremendous development now under way, makes Calgary the next great fortune making centre. Bankers and business men from all quarters of the world are sending capital here to take advantage of the wonderful opportunities.

We are not promoters tied to one proposition and blinded by prejudice, but are free and independent to recommend or condemn the various stocks according to our best judgment.

Because of our large experience, and thorough knowledge of conditions, our recommendations are eagerly sought after.

The oil barons of to-day are the early investors in new oil fields. The opportunity is here right now, during the development period, for both small and large investors.

Write to-day for map of the district, and our market letter—the authority on Calgary stocks.—Both Free.
